## HandyStep® touch

Do not miss our special prices for HandyStep® touch  
– only from July 1 until September 30, 2021!

**BRAND. For lab. For life.®**

### The next generation repetitive pipette

Repetitive pipettes are the first choice when it comes to efficient dispensing of long series. Positive displacement pipettes are often the right solution for pipetting viscous media. The new stepper HandyStep® touch from BRAND combines both features. The HandyStep® touch S has additional capability, such as titration or sequential dispensing. With the touchscreen display, you conveniently swipe back and forth between functions and always have an overview of the essential information on your work steps. Operation is easy, even with protective gloves on.

### Your advantages:

- + Simple: Touchscreen operation like a smartphone
- + Easy: automatic tip ejection
- + Efficient: compatible with tips from other manufacturers

\* All prices are recommended sales prices without VAT. Savings in percent compared with BRAND price list 2021.

# Special offer HandyStep® touch

Valid from July 1 until September 30, 2021

## Save up to 20%\*!
